1. Mr. Sowers 2. Mrs. Woodruff 3. Mr. Hamner 4. Mrs. Uebelhor 5. Mr. Page

Top Ten Teachers at Manual High School!

1. Mr. Swinford

What motivates you to teach the students at Manual High School?

"My philosophy about Manual students is simple. I'm number 2, because the students are number 1. Many of my past students are friends today. Watch the halls in the holidays and see how many of the past students return to visit the teachers. This indicates more than a teacher-student relationship. This to me is a family and I feel at home. What a nice way to spend a career."

2. Mr. Hamner

How do you feel about this?

"I feel really honored and I really appreciate Manual students. I feel that a lot of our students here at Manual are worth of this type of recognition. I was just fortunate to have been selected as one of them. I have never placed much importance on hall of fames and teachers of the year recognitions just because of that...there are lots of teachers and couches out there who go unrecognized who are just as worthy."

3. Mrs. Johnston

What motivates you to teach the students?

"I feel like they're my own kids. I can't think of a better job in the world then being a teacher."

4. Mrs. Haughawout

What motivates you to teach the students at Manual High School?

"The students themselves, they teach me as much as I teach them, and they constantly crack me up."

5. Mrs. Clay

How do you feel about being ranked in the top ten teachers at Manual?

"Simply wonderful."

6. Ms. Oliver

How do you feel about this?

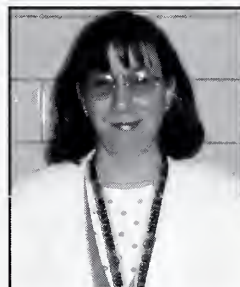

"I hope the students know that the main reason a teacher is here is to help them develop into a whole person including academics, character and values. If it wasn't for my students my classes wouldn't exist and if they didn't keep me laughing with the ridiculous pictures they put up of me my class would be very boring!"

7. Mrs. Ubelor

What do you think that you have accomplished to be chosen as one of the top 10 teachers at Manual?

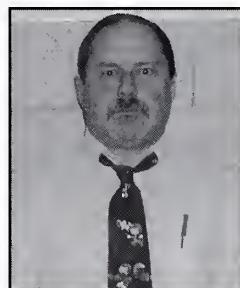

"I hope the students here at Manual recognize that the reason I'm tough on them is because I care about them and their futures. When I see students graduate and go on to college or good jobs, I feel that I've done my job."

8. Mr. Page

How do you feel about this?

"I am sincerely flattered that I have been chosen as one of the Top 10 teachers at Manual. It is always an honor to be recognized by a group. This is one of the few times I am really speechless."

9. Mr. Sowar

What do you think you have accomplished?

"Hopefully I have pushed the right buttons to promote interest in the material and an acceptance of personal responsibility."

10. Mrs. Woodruff

How do you feel about this?

"I am extremely excited, not only because it is my first year at Manual, but because it is truly an honor to get this kind of recognition from my students."
